Oct. 18th – 3hr. early dismissal

Oct. 19-20- NO SCHOOL-Educator Conference

Chapel

Our chapel offering this week amounted to \$38.22, bringing the total to \$78.35. Every \$5.00 collected will buy a Bible or Catechism for a child in Africa, Asia, or South America. We're looking forward to Pastor Luehmann telling us about this mission work. Attached to the newsletter, you will find a thank-you letter from the deaf ministry in regard to your support of their mission work last year. Let's continue supporting missions that others may learn about Jesus!

ANNOUNCEMENTS

Y.I. Stamp Club: We had 2 more students join the Stamp Club. That brings our total to 30 students at our school! It was great to see the long line on Wednesday to buy stamps. Saving money is fun and helps others learn about Jesus. It's never too late to join!

Blue Internet Permission Forms need to be signed and returned for all students K-8. Please return them as soon as possible! Thank you!

FarmAmerica Field Trip: We will be leaving school next Thursday by 8:30 am. Eunie is going to pack a lunch for us, so we will not have to bring one. Thanks, Eunie!! We will return to school by bus time. Please have your child dress for the weather, since we will be outside a good portion of the day.

Tuition Billing: The billing for September tuition should go out next week. We are still figuring out tuition assistance for families who requested it. If you need assistance and have not filled out the form, please do so ASAP. Also, the lunch billing will be delayed so you don't get both bills back to back. Thank you for your faithfulness!

Classroom News

Miss Schuft's News - PreK 3 & Toddlers

We've concluded our lesson on God's creation and made a mobile to depict the order of creation days. We've learned many new songs and are starting to learn one we're planning to sing for the Christmas service. This has movements, too, so Miss Schuft will send a print-out home for us to practice at home. We've come to the conclusion that we all need to work on learning our colors and shapes. We've begun this here and encourage help at home as well.

Growing in Christ,

Angie Schuft & Andrea Harbarth

Mrs. Bernau's News - PreK-4

Each day we have the privilege of learning about Jesus. This week we heard the story of "The First Sin" from Genesis 3. This story tells how God created the world perfect., but how sin brought troubles and bad changes. We know that our salvation comes from God's son, Jesus, who is our Savior. The children were so very attentive when we told this story. Our letter for the week is Aa. We are doing a Science experiment to see what apples turn brown first. The different substances that the apples are placed into are salt water, vinegar, lemon juice, soda, and nothing. A is for apple and avocado. We tasted both of these during the week.

Joyfully sharing Jesus with His children every day,
Mrs. Bernau

Mrs. Heine's News - Kindergarten

Thank you to all for the wonderful support for the "Best of the Wurst." It was a fun, fabulous success! The Kindergarten have finished their creation booklets and I'm in the process of laminating them. They will be proud to sing the whole song to you and show you their work. Bible stories now center around man being made in God's image, the fall of man, and God's promise. Many poems and rhymes that speak of fall leaves and apple trees have been reviewed and extra verses learned. Letter strokes have been practiced and much practice has been done on letter writing. The **40** sounds of the letters will be introduced, practiced, and memorized over time. We're also getting ready for our field trip to FarmAmerica next Thursday.

In God's Service,
Mrs. Heine

Miss Goltermann's News - Gr. 1-2

With God all things are possible! We saw this in the story of Abraham, Sarah, and Isaac. Even though Abraham and Sarah were quite old, God blessed them with a child to fulfill God's promise to Abraham that he would become the father of a great nation. We have been busy this week! We are learning consonant sounds and short vowel sounds. We've taken our first math test of the year. Learning about habitats is our topic for science. We saw what happens when habitats are changed by decreasing the amount of water, food, and shelter for animals. In Social Studies we are learning about maps and we're getting ready to begin making a map of our school and classroom. Thank you so much for all of your support for the Best of the Wurst! I appreciated all of the help with our class basket, setting up for the dinner, and cleaning up when all was done.

Remember to worship with your family this weekend!

In Christ,
Miss Goltermann

Mrs. King's News - Gr. 3-4

As routines are established we still have a few things that we are working on in class. Those things are the volume of our voices, thinking about our questions and not giving up too quickly, and reading and working quietly when finished with an assignment so that others aren't disturbed. These things all fall under our one classroom rule of "respect." We are using our chrome books for English and typing club to learn to keyboard correctly. In English we are already labeling sentences with subject nouns, verbs and adverbs. Many cool things about the insects and our senses are topics in science. We talked about Abraham and God's promises in religion this week. We look forward to FarmAmerica next week and singing in church on October 8th.

Blessings,
Mrs. King

Mrs. Scharf's News - Gr. 5-8

The first assignments on the chrome books are in! They emailed their personal narrative rough drafts to me. I will edit them and then they will make the corrections. They will not have to write it all out a second time. ☺ All the 5th and 6th graders not only aced their first math tests, they all got **A+!!** Keep up the good work. Thanks for all the work put in on Best of the Wurst by faculty, staff, parents, and students. Please thank your family and friends who came to support our school. This fundraiser will help with tuition assistance. Parents: from time to time we give permission for the 5-8th graders to go to the library to pick up a book during school time. They go in pairs. If you do not want this permission given, please let me know.

Keeping Jesus at the center,
Mrs. Scharf

Mrs. Zumhofe- Gr. 5-8

We are wrapping up our unit on plants. The students dissected some flowers from my garden – gladiolas. Using magnifiers we could see the pollen on the stamens and ovules in the ovary – amazing! First science test is coming up! For gr. 3-4 PE (while Mrs. King takes gr. 5-8 to bells) we are learning to play kickball. Thank God for the beautiful weather!

In His Service,
Mrs. Zumhofe
