NATIONAL LUTHERAN SCHOOLS WEEK

(Please take note that **we at Immanuel do have school on Monday, Jan. 22nd.**) **Parents need to provide transportation. Snow is being forecast for Sunday evening.**

One of the activities of the week will include the sewing of School Choice scarves to make blankets for the Oak Terrace residents. Adult help will be required. Please contact Mrs. Mehlhop, 507-237-2804, if you'd like to help. We will begin work on Tuesday and continue each day until we finish.

Please refer to the schedule you received regarding the activities for this special week so that you and your children will be able to participate in the events each day.

Still Needed for NLSW

3 pails of ice cream, 3 mini donuts, 3 jugs juice, 2 families to bring 2 dozen muffins each

Classroom News

Miss Schuft's News - PreK 3 & Toddlers

This week we've been learning about the letter "H". We now know many things that begin with the "H" sound. Our letter recognition is coming along nicely. Our Bible lesson this week was how Jesus fed the 5,000. That's like everyone who lives in Gaylord and Arlington sharing five loaves of bread and two fish. Amazing! We're starting to do some assessments on physical abilities while they play. This will continue through next week. Next week is National Lutheran Schools Week. There are many fun activities planned for it.

Growing in Christ,

Angie and Andrea

Mrs. Bernau's News - PreK-4

Jesus is the Light of the World. We heard about Bartimaeus. He was a blind beggar that sat by the city gate. Jesus was passing by and Bartimaeus was calling

out to Jesus to heal him. Jesus stopped to heal him. We, too, will someday see our Lord face to face and have the joy that Bartimaeus had when he could see. We remember these Bible words that Jesus said: "I am the Light of the world." John 9:5. We celebrated Dr. Martin Luther King Jr. Day by learning about him and how he wanted all people to be treated equally. An object lesson I shared was using two eggs: a brown egg and a white egg. We talked about the differences and how they are alike and different just like God made people different in their color/race. Then I cracked the eggs open so they could see how God has created them the same. We are all the same inside as well. Next week is National Lutheran Schools Week! We will have lots of fun all week. Please join us on Thursday night, the 25th. We will have a "Reading Night" with reading and activities based on the book, Snowmen at Night. It goes from 4:30pm until 6pm. Invite a friend. Jesus is the Light shining in all of us,

Blessings,

Mrs. Bernau

Mrs. Heine's News - Kindergarten

The children are working hard to show what they have learned first semester of kindergarten. They have been counting up to 100 by 1's, 5's, and 10's and writing their numbers to 50 as neatly as they can. They are reading and writing new words and using them in sentences. Writing sentences with correct form is proving to be a fun challenge. Making snowflakes reminds us how unique God's creations are. We are all unique and precious to God. Jesus showed us how sincerely He felt this by welcoming the little children to come to Him in our Bible story. We're looking forward to Lutheran Schools Week next and hope to see many of you for our special activities.

Love in Christ,

Mrs. Heine

Miss Goltermann's News - Gr. 1-2

This week we finished our Bible story book about leaders. We learned how God chose special people to help fulfill His plan. We also learned how God has given us leaders, too. Our next focus will be on the prophets.

We have also finished our social studies unit on "People at Work." We learned the difference between jobs that provide goods and those that provide services. We also learned about transportation and how goods get from the factory or farm to the stores and finally to our homes. Next week we will begin a new unit in our science book. Next week will be an exciting week as we celebrate Lutheran schools. Please note the special days and events planned for the week. We will sing in church on January 28th. Please mark the date and plan to join us

for that day. Blessings on your week! Remember to worship with your family!

In Christ,

Miss Goltermann

Mrs. King- Gr. 3-4

We have been working very hard on some math programs on our computer and will be starting on a new typing program soon, too. If your child would like to bring a mouse to use with their chrome book that is fine. This will allow them to have their own and not beg to share. Report cards come home today and look pretty good. Remember to keep checking FastDirect for grades to keep up with what is going on in their classes. Next week is Lutheran Schools Week. Dress up days, activities, games and daily devotions will be some of the highlights of our week. Remember to bring your favorite Bible verse to school with you on Monday (or Tuesday if there is snow.) What a great week that is planned to show "It's Cool in a Lutheran School!" Thanks for being a part of this Great School!!!!

God's Blessings on your weekend!

Mrs. King

Mrs. Scharf- Gr. 5-8

We are in the middle of fractions, fractions, fractions in 6th grade math. Each new lesson brings yet another way to add, subtract, multiply, or divide them! So far, the students are following the "rules" and getting the correct answers time after time! ☺ We did a lesson in each class on probability. In history we are finishing up units on WWII (5/6) and the explorers (7/8). A WWII video summarizing the war was pretty sobering when a few pictures of the Holocaust and also rows and rows of white crosses were shown. God has blessed our country with men and women ready to die for our freedom.

While MOST of the class is fully in the 3rd quarter, there are a few assignments missing from 2nd quarter yet. Reminders go out daily and are on the board. Please encourage your child(ren) to make every effort to get their work in on time. Thanks!

Keeping Jesus at the center,

Mrs. Scharf

Mrs. Zumhofe- Gr. 5-8

Key words in Reading 5 this week: "Go With the Flow". In Science 5/6: Fiery, layered, and changed ROCKS. We did a fossil demonstration and we are also growing crystals. In Science 7/8: Fungi and plankton. We watched the Bill Nye Science Guy "Plankton" episode to learn more about how much our oxygen supply depends on the ocean's plankton! In Math 7: Parallelograms. In Algebra 8: Geometric solids, prisms, and cylinders. Look for report cards today!

In His Service, Mrs. Zumhofe
