**Chapel**

Well done, God's faithful servants! This week's chapel offering was **\$27.59** raising the total to **\$139.66**. We have five more chapel services to raise this total. Let's continue to support this important Guatemala mission of spreading the gospel. We are also helping those who are the missionaries from Immanuel do the mission work for us.

**Classroom News**

**Miss Schuft's News: PreK 3 & Toddlers**

This week we learned about the letter "T". We made tigers for our alphabet book. Please help your youngsters with letter recognition at home; this serves as an asset to reading and is very important. The coming of the Holy Spirit was this week's lesson. We sang "This Little Gospel Light of Mine" to reiterate the fact that the Holy Spirit has promised to make us disciples of all nations so we can tell everyone the Good News of Jesus as our Light of the World.

Growing in Christ,  
Angie & Andrea

### Mrs. Bernau's News: PreK-4

In our Jesus time the children are learning a new word, "witnesses." They have learned that it means to go out and tell others about Jesus. They have been encouraged to tell their family and friends about Jesus. We are all told to share our faith. Our letter for the week is "Ww" and we are learning a few sight words, too. The children are so eager to learn. The class has also learned about transportation and the safety signs we use. It has been fun to share unique transportations as a Segway, Basket Ride and Coco Taxi.

Sharing our faith in our Risen Lord,  
Mrs. Bernau

### Mrs. Heine's News - Kindergarten

The kindergarten children are working hard on spelling words and sentences and reading new books. We are reading about weather and seasons in our science books. We're also getting ready for talent night next Thursday. We're continuing to count money (Thanks, Eunie.) and having great fun finding our 2-3-4 letter phonograms in various words that we can read. Making our hallway spring scene look pretty is giving us some very creative moments and accomplishments.

In Christ,  
Mrs. Heine

### Miss Goltermann's News: Gr. 1-2

We've learned about Pentecost and the Holy Spirit and how God made His power known to the people through the disciples. We also learned how the Holy Spirit gives us the power to lead a life that witnesses to God's love and grace. The second graders have started to learn multiplication. They have also been learning about diphthongs, two letters blended together to make one sound. We've learned about /ow/, /ou/, /oi/ and /oy/. We're working on adjectives and continuing to improve our writing and reading skills. The first graders are working on long vowel sounds. We're learning spelling patterns to help us recognize long sounds. In math we've been measuring using inches and counting nickels. Saturday is the spelling bee in Truman. Our class participants are Sapphire and Mallory. They have been studying words for weeks. We wish them the best!

In Christ, Miss Goltermann

### Mrs. King's News: Gr. 3-4

God's Blessings and good luck to our participants at the Spelling Bee this weekend. Hope and Colten will represent our classroom well, I am sure. We look forward to seeing all of the different talents represented next Thursday at our school Talent Night. God has surely blessed our students with some amazing gifts. Thursday is also our trip to MLC for the play, "Cinderella and the Substitute Fairy Godmother." This should be an enjoyable show. There are many things happening in our last 20+ days of school, including our achievement testing, but we will keep pushing along and learning the most that we can before we move up a grade.

In His Service,  
Mrs. King

### Mrs. Scharf's News: Gr. 5-8

This week we have shifted our schedules around to make time for CPR/First-aid training. We thank Mrs. Amy Lieske for her interesting hands-on training. While we all hope we never have to use this, it's important to know what to do in case of an emergency. The 5<sup>th</sup> grade math students had coordinate plane work this week. That means, after the lesson, they got to draw their own drawing on the plane and give directions for me to recreate it. There were only a couple wrong coordinates given. They did well. ☺ The 6<sup>th</sup> graders are working with experimental probability. It's easier than it sounds! The students are getting excited to go to Camp Omega. We still need drivers. Information and pledge sheets were sent home with the students. They need to be returned BEFORE we go to camp.

Keeping Jesus at the center,  
Mrs. Scharf

### Mrs. Zumhofe's News: Gr. 5-8

Key words for this snowy week include Algebra 8: Factorable Denominators. Math 7: Using a compass and ruler. Reading 5/6: As a group we are reading "The Whipping Boy" and writing a summary for each chapter. Science/Health this week and part of next is CPR and first aid training led by Amy Lieske.

Rejoice with me as we celebrate the birth of Malcolm Dean, son of my youngest daughter, Carla, and her husband, Aaron. God is good!

In His Service,  
Mrs. Zumhofe
